Club Meeting April 14th at 7 PM at the Honeoye Library

Flying season is rapidly approaching. Some of us have already had a couple of flights. If you do go to the field this time of year check the driveway before you go to the pit area. You make get to the pit area and sink.

At the last meeting we decided to get a new roller for the field. ,The current tractor is a little wider than the old tractor and the tire tread does not roll out. Our neighbor (Goetzman) is interested in our old roller so I will see what kind of a deal I can make with him. The roller we are planning to get is a 60" x 24" and when filled with water will weigh about 1100 lbs. The width of the new roller will allow us to use the big tractor or let some of the water out of it and use the mower. With this option we may be abler to roll the field a little earlier.

My projects are about done. The P47 is ready to paint and will probably be ready to fly around May. Pete says he is ready and Jeremy has been ready so as soon as the weather is ready it should be a good season.

On the 26th of March the club held its 4th annual presentation on RC flying at the Honeoye Library. This is the first year that we had more attendees than members. Max made sure we did more advertising this year and it helped out. We might pick up two new members as a result. One of the attendees was part of a group that investigates UFO sightings and wanted to learn about Drones so it could be used in the investigations.

I also wanted to let you know most of Ed Bonds equipment went to club members and I am sure it will be put to good use.

I have put the mowing schedule together. You will find it on page two. If there are any dates that conflict with your plans let me know and I will make adjustments.

I will be making arrangements to have the Outhouse serviced again this year. Our first service will probably be in May due to a heavy truck and wet ground. If nature calls before then you will probably have to go primitive.

Sorry for the lack of new photos but I am out so I put in a page of oldies but goodies.

Flying will start soon so be at the ready in case we get a good day. See you at the field.

2016 Mowing Schedule

| Date | Name |
|-------------|----------------|
| 4/30 | Jim McBride |
| 5/7 | Tom Sharp |
| 5/14 | Nick Trezza |
| 5/21 | Mark Woodruff |
| 5/28 | Ned Holmes |
| 6/4 | Dave Beckwith |
| 6/11 | Doug VanDeroef |
| 6/18 | Pete Donk |
| 6/25 | Mark Smith |
| 7/2 | John Ward |
| 7/9 | Henry Latka |
| 7/16 | Jim McBride |
| 7/23 | Tom Sharp |
| 7/30 | Nick Trezza |
| 8/6 | Mark Woodruff |
| 8/13 | Ned Holmes |
| 8/20 | Dave Beckwith |
| 8/27 | Doug VanDeroef |
| 9/3 | Pete Donk |
| 9/10 | Mark Smith |
| 9/17 | John Ward |
| 9/24 | Henry Latka |
| 10/11 | Jim McBride |

Blast from the past. Ned and Mark indoor flying.

Nick and Joe enjoying Thursday evening.

The Titusville terror when he flew.

The gang at Olean after breakfast.

Nick and the Pizza King doing what they do best.

Frick and Frack flying.
